

## ❖ Who We Are

**TERMINALFOUR** provides Enterprise Web Content Management Systems (WCMS) and Solutions to medium and large sized organizations throughout the US, Europe and the Middle-East.

Our market leading product, **TERMINALFOUR Site Manager**, automates the creation, approval and publishing of on-line content and expertly interacts with data stored in external Enterprise systems.

TERMINALFOUR is headquartered in Dublin Ireland with offices in the UK. We are the number one provider in the Public Sector and Higher Education WCMS markets in Ireland and Number one in Higher Education in the UK.

We work in partnership with a number of the World's largest IT companies and Systems Integrators including Oracle, IBM and Sun Microsystems.

TERMINALFOUR recently achieved our eight successive listing in the Deloitte Technology Fast 50 - [www.fast50.ie](http://www.fast50.ie)

## ❖ Our Product

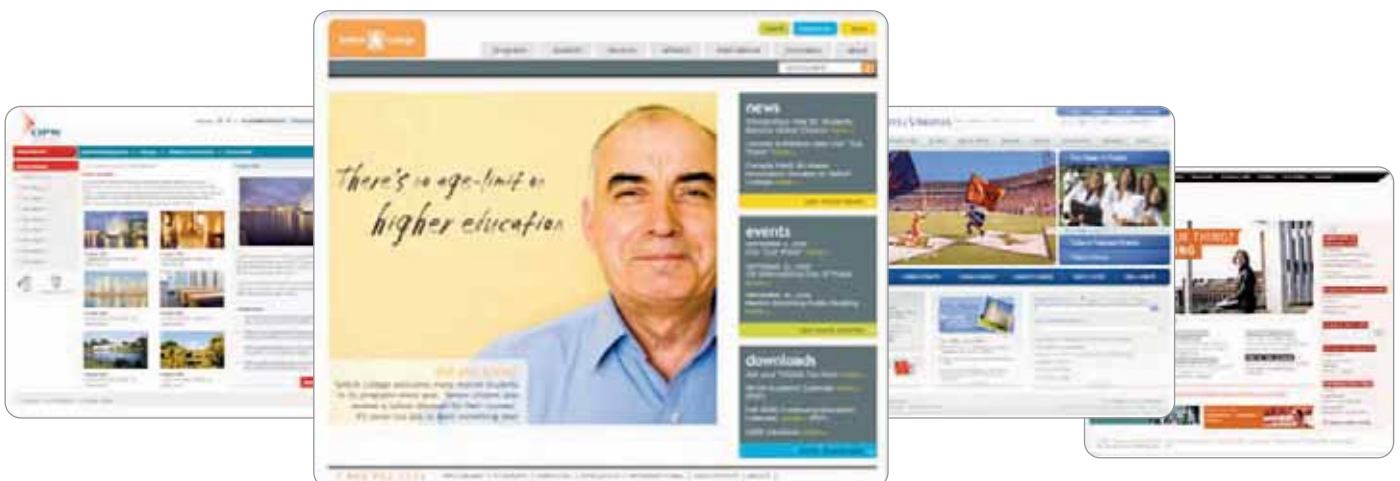

**Site Manager** is an Enterprise Web Content Management system that provides bundles of highly configurable yet extendable business and technical functionality.

It not only allows business users to easily create and manage very large and complex websites, but to also to create and manage a suite of eForms / Self Service applications.

Site Manager is based on completely open standards such as XML, Relational Database Technology, ODBC, JDBC, JNDI and Web Services.

### Why choose us?

- **Easy authoring and approval** – just match it to your organisation
- **Cost Effective** - ease of use, ease of installation and ease of integration
- **Scalable** – reuse content on Internet / Intranets / Extranets
- **Extensive Reference Base** – hundreds of clients, thousands of sites

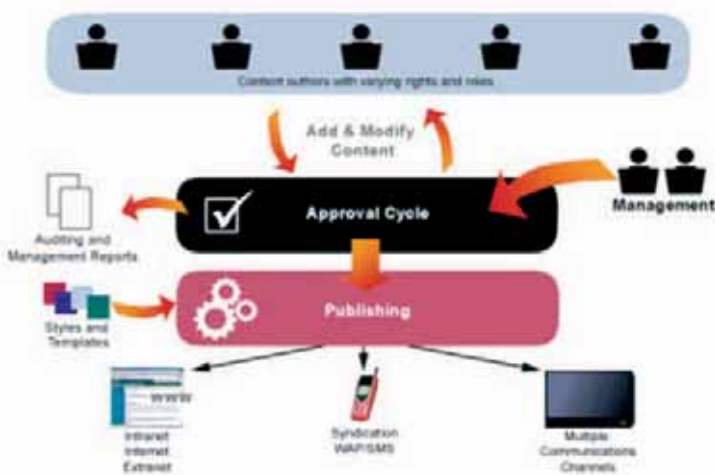

TERMINALFOUR has an international client list which includes organisations in Ireland, the United Kingdom, the United States, Canada and the Middle East. We focus on the following sectors:

**Higher Education** - Over 45 universities and colleges rely on Site Manager to manage their vast internet and intranet sites, including Oxford University (UK), University of Virginia (US), Selkirk University (Canada) and University College Dublin (Ireland).

**Public Sector** - Central and local government clients include the United Nations (New York), the Departments of Environment and the Office of Public Works (Ireland), Worthing Borough Council (UK) and The Ministry of Information (Bahrain).

**Commercial Organisations** - Multinational clients include Specsavers, Element Six (De Beers Diamonds), Tesco and Hibernian Insurance.

## ❖ In a Nutshell

## ❖ How We Work

We know how to unlock the value of your content, both directly and through our partners. We view our partners as an extension of our business. They bring our leading solutions - combined with their niche expertise and technologies - directly to your door, wherever you may be. Our end-to-end service means that we're with you every step of the way: throughout Project Management, Support and Maintenance. Our Training Team works closely with you to ensure a high level of user acceptance and rapid roll-out.
