

Manage Measure Engage Convert

A Digital Engagement and Web Content Management Platform for Higher Education

www.terminalfour.com

Who we are & what we do

Terminal four empowers higher education institutions across the world with smart, innovative digital strategies and web solutions.

Our digital engagement and web content management platform transforms how you connect to your audiences, and lets you create targeted and incredibly effective digital marketing campaigns, clever engagement strategies, and a unified online presence.

Our goal is to help you solve business challenges so your university or college can:

- Increase admission enquiries
- Recruit more researchers, professors, and staff
- Fundraise more efficiently
- Revamp and customize your communications to various audiences
- Improve your digital marketing performance
- Customize your communications
- Enhance your online visibility

We don't want you to just stay ahead of the game; we want you to lead the way.

You can take your business and marketing goals further.

You can do it with Terminalfour.

We guide you to get results and achieve your recruitment, advancement, research promotion, and online performance objectives.

What we offer higher education

Every university and college is different: with our flexible and robust Terminalfour system, we help you create a distinctive online presence that's tailored to your specific needs and growth objectives.

With our user-friendly CMS and digital engagement system, you can have creative, accessible, and responsive websites, packed with leading-edge technologies and strategies:

- Streamline and unify your brand across all your websites
- Build online engagement and deliver personalized user experiences
- Easily manage and publish content across hundreds of sites
- Create effective digital marketing campaigns
- Centrally manage templates and assets and create, manage, and reuse content from authors across your university
- Make information easily accessible on several channels: websites, intranets, extranets, and social media
- Test and monitor the performance of your website content and campaigns
- Depend on the security and stability of managed website hosting, regardless of visitor volumes

Join more than 200 universities and colleges worldwide that depend on the power of Terminalfour.

Build emails that get results

No coding? No problem.

Design professional-looking email campaigns and use A/B testing to measure their effectiveness

Site Management

Pixel perfect design control over layouts

Make your site accessible, fully responsive, attractive and maintainable with easy-to-use design frameworks and development tools

What makes us different?

Terminalfour was built with security, flexibility, and reliability in mind so you can drive more traffic to your university or college website, nurture leads, and maximize conversions.

We created Terminalfour specifically for higher education, and we have nearly two decades of experience delivering cutting-edge web content management systems to universities and colleges of all sizes.

We know the challenges you face: our aim is to give you tools and tangible results to stand out from the crowd and thrive in a digital world.

With our deep knowledge and experience in the higher education market, we're not just a solution provider; we're your partners, engaged in your success. For many of us here at Terminalfour, it's more than a job: it's a cause worth championing.

We work collaboratively with you to ensure we can seamlessly execute even the most audacious ideas.

Try us, we love a challenge!
